

Release Notes

Product Name: TeamTexter® 2.0 Web Application

Release Number: v2.0 SP4

Date of Release: October 6, 2022

Overview: This service pack includes minor user interface updates and new features to the web application.

1. New Feature – Ability for Users to Change Password

- **Issue Summary:** Users didn't have a way to self-serve change their passwords from the application.
- **Resolution:** Now by clicking on the user avatar and navigating to Profile, the user can change their own password from within the application.
- **Impacts:** None.

A screenshot of a web application interface for changing a password. The interface is titled "AUTHENTICATION" and includes the instruction "You can change your password below." Below this, there is a form with a label "PASSWORD:" followed by a text input field containing eight asterisks. To the right of the input field is a green button labeled "Edit".

AUTHENTICATION

You can change your password below.

2. New Feature – TeamTexter 2.0 Now Compatible with Oracle Recruiting Cloud

- **Issue Summary:** TeamTexter 2.0 had not been successfully operational with Oracle Recruiting Cloud (ORC) due to some limitations within Oracle Recruiting Cloud.
- **Resolution:** TeamTexter 2.0 has been tested with Oracle Recruiting Cloud and is working as expected with back-end coding and workarounds.
- **Impacts:** Implementation is now available for TeamTexter 2.0 with ORC.

3. New Feature – User Login Activity

- **Issue Summary:** TeamTexter support was not able to determine if accounts signed up online (as fraudulent accounts) had actual login attempts to use TeamTexter.
- **Resolution:** In TeamTexter 2.0 support module, it can be seen when a user logs into the TeamTexter 2.0 application.
- **Impacts:** All TeamTexter Administrators (Support) must register for 2FA to be able to login.

4. New Feature – Ability to Add to Group Through Workflow Actions

- **Issue Summary:** After setting up a workflow to trigger for a certain criteria, there was no action to Add to Group.
- **Resolution:** The action has been added to Add to Groups within the Workflow settings.
- **Impacts:** Text recipients can now be added to Groups through Workflow Actions.

Administration > Edit A Workflow
